DETAILED ACTION

This Office Action is in response to the Applicant's amendment filed December 7, 2005.

Allowable Subject Matter

Claims 6-11 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose, make obvious, or otherwise suggest the structure of the applicant's together with the other limitations of the independent claims, such as but not limited to "a second substrate including a thin film transistor electrically connected to the organic light-emitting element, the first substrate being bonded to the second substrate, by using anisotropic conductive paste disposed in a position corresponding to the periphery of the thin film transistor" of claim 6 and "a second substrate including a thin film transistor electrically connected to the electro-optical element, the first substrate being bonded to the second substrate, by using conductive material disposed in a position corresponding to the periphery of the thin film transistor" of claim 8. The dependent claims being further limiting and definite are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art with respect to active matrix display devices:
